YISA ABDUL -MAJID

WEB DEVELOPER

Majid is a dedicated self-taught programmer, I bring over three years of experience as a passionate backend developer in the tech industry. My expertise spans various programming languages and domains, with a focus on Python for Web development using frameworks like Django, FastAPI, and Flask, as well as Python for Automation and PyScripts. Additionally, I possess a deep understanding of Linux, APIs, and extensive experience with databases. Collaboration is key to my approach, and I take pride in being a team player and have an insatiable appetite for learning also readily embrace new challenges. My strong motivation and result-oriented mindset make me confident that I can significantly contribute to the success of your team. I eagerly look forward to making a positive impact and further enhancing my skills in the process.
